DESCRIPTION

Hear every visitor with the Byron DBY-22321 wireless doorbell. This easy-to-install wireless doorbell can be placed anywhere. The doorbell set consists of a good quality mesh-finish doorbell for inside and a weatherproof bell push for outside. When someone is ringing your doorbell, the doorbell gives a sound signal and a visual signal, this way you will always know when someone is at your door.

Wireless range up to 150 meters

The bell push works on the included CR2032 battery and can easily be installed at every door. The doorbell works with 3x AAA batteries (not included) and can be taken anywhere around the house thanks to the reach of up to 150 meters. Can't you hear the doorbell while working in the attic or garden? This isn't a problem anymore with this wireless doorbell set. You won't miss a single visitor.

16 melodies and 5 sound levels

Select the desired melody from the 16 options via the bell push and use to set the 85 dB volume to 5 sound levels, 25%, 50%, 75% of 100% as desired. This way the doorbell can be adjusted to all your preferences.

Easy installation

Use the enclosed double-sided tape to instal the watertight bell push. The wireless doorbell can be placed anywhere in the house. Installing the bell push and doorbell is quick and easy in just a few seconds.

Tip!

This doorbell is easy to expand. Do you also want to place a door push at your backdoor, so you’re your visitors can ring the bell there as well? That’s possible. The Byron BDY bell pushes can be connected to any doorbell. Different melodies can be selected on the inside of the bell push, so you know when someone rings at the front door or when the back door bell rings.

In addition, you can also purchase an additional doorbell at home, which works on all connected door pushes. Handy for the second floor for example.

What’s in the box:

Bell push, portable doorbell, double-sided tape, 1x CR2032 battery, manual
