Description Application Additional information SMART Tips Videos Reviews (0) Downloads

A Trade Series Japanese tooth multi-tool blade for a wide variety of cuts in wood, hardwood, plastic, drywall, timber overlay flooring and more. The Japanese tothing enables the blade to make very fast cuts and is particularly effective on drywall compared to other blade types. The blade width allows for longer wider cutting such as cutting out for socket boxes and trimming timber.

The Trade Series contains a huge range of high-quality multi-tool blades and accessories designed to equip trade users with an accessory for any and all requirements. Extend the capability of your multi-tool with the wide range of cutting, scraping, sanding and grinding accessories in the Trade Series.
