

Product code: CB01

Cableboss is a pre-formed bracket that enables the easy positioning of cables in walls and ceilings. Combined with our [FREE mobile app](#) to record locations, your cables will stay exactly where you left them.

5 simple steps to use cableboss:

1. Clip together
2. Screw to joist (screws not included)
3. Feed cable through
4. Record location with [FREE mobile app](#)
5. Use app to locate and recover cables for final fix

#### ⚡ Product Details
