

A4 LANDSCAPE WEATHERWRITER PRO WATERPROOF CLIPBOARD

Made in the UK, the WeatherWriter waterproof clipboard has been trusted to protect your notes from the rain and wind for over 20 years. On wet or windy days release the Velcro fastening to automatically open up the sprung, clear hood. You can now read and write on your papers whilst keeping them protected from the rain and wind. On dry days, keep the WeatherWriter closed, turn it onto its back and use it as you would a normal clipboard.

Description

Made in the UK, the A4 Landscape WeatherWriter PRO Waterproof Clipboard has been trusted to protect your notes from the rain and wind for over 20 years. On wet or windy days release the hook & loop fastening to automatically open up the sprung, clear hood. You can now read and write on your papers whilst keeping them protected from the rain and wind. On dry days, keep the A4 Landscape WeatherWriter PRO Waterproof Clipboard closed, turn it onto its back and use it as you would a normal clipboard.

The standard clip version has a clip at the top both inside and on the reverse, for holding your paper. The double clip version also has a clip on the bottom on the reverse so that your paper can be held top and bottom in gusty weather. The A4 Landscape WeatherWriter PRO Waterproof Clipboard has two integrated, internal pen pockets. It comes with a name card so that you can personalise your A4 Landscape WeatherWriter PRO Waterproof Clipboard. Lightweight and easy to carry, it can be hung round your neck using our WeatherWriter PRO Safety Neck Cord accessory, allowing you to safely go hands-free.

We have made several changes to the A4 Landscape WeatherWriter PRO Waterproof Clipboard over the last 20 years. Robustness is always at the forefront of our design changes. The plastic we use is made in Europe for us (and only us) and is specially softened so that it does not crack in cold conditions. Standard plastic used in standard clipboards will crack within days. Our material is also UV stabilised which means it will not discolour in the sun. The see-through plastic in the hood is crystal clear so you can see your notes without any distortion.

More recently we have designed a practical solution for lifting the internal paper clip. For ease of use our new patented Secure Lift™ technology enables A4 Landscape WeatherWriter PRO Waterproof Clipboard's internal clip to be lifted from the outside. This allows easy access to your notes, and at the same time, keeping them dry and away from wet arms.

Additional optional extras include our popular full torch system for night-time outings and an equipment strap for stopwatches.

Why choose the A4 Landscape WeatherWriter PRO Waterproof Clipboard?

- Made in the UK to the highest standards
- The original waterproof clipboard, designed and redesigned to last
- Specially softened plastic (to our "recipe") to prevent cracking in cold weather
- Crystal clear top plastic so no distortion when reading through the hood
- Hands-free access to your paper – all paper can be released from the outside of the WeatherWriter PRO using our black Secure Lift lifter at the top. No need for wet arms inside the WeatherWriter PRO
- Clips can hold multiple sheets
- 2 internal pen pockets
- Lightweight and easy to carry
- Stainless steel sprung-frame so no risk of rusting
- Clip(s) on the back allow the WeatherWriter PRO to be kept closed and used as a normal clipboard in dry weather
