Starter Contents: 1 x Unit, 2 x E14 Bulb, 1 x Glue Board

£ 75.95 Excl VAT

Quantity**Color****DESCRIPTION**

C21 Future lux junior 20W glue board fly killer

C21 Future Lux: A unique, stylish wall mounted glue board table-top fly killer range available in white and stainless steel. Ideal for commercial kitchens, food storage, counters, reception areas, waiting rooms, doctors etc.

The future Lux is a unique range with a modern design assuring it is suitable for a variety of different businesses. The units are fitted with the energy saving E14 UV bulb, assuring a high UV light output all the while saving you money on your energy bill!

The fly killer with its energy efficient 40watt Fluorescent lamp attracts flying insects into its shell and they are then caught in the unit with the glue board situated behind the bulb.

We would recommend that the fly units are positioned away from light sources as this can interfere with the UV Rays coming from the fly unit. The Future Lux can be wall mounted and would blend in perfectly on the wall in all commercial kitchens and food storage areas.

Servicing the Future Lux is very simple as the front of the unit comes forward and the glue board is easily accessible

Starter Contents: 1 x Unit, 2 x E14 Bulb, 1 x Glue Board
