

Road Marking Crayons

Walters & Walters WSR Roadmarkers are the UK's number one Road Marking Crayon. They are specially formulated to mark all types of road surfaces, rough or smooth, and they will even work on a damp surface. Used by road surfacing contractors, local authorities, the fire brigade & police, the water board, sports events, to name just a few! Wax Crayons are used in place of paint spray and they are now the preferred option for a large number of councils.

Walters WWT Timber & Metal Crayons are also widely used for marking Road Surfaces and all other types of Stone & Masonry. They are particularly useful where numbers and digits need to be written. As they are labelled, they are clean and easy to use.

Both types are available either direct from us or from one of our fantastic Distributors which cover the majority of the UK. For further information, please just get in touch Tel: 01763-245445 or email sales@waltersandwalters.co.uk
