

WMDR1L

1 Gang Rotary Dimmer Switch Leading Edge

Technical characteristics

Main electrical features

Frequency	50/60
Nominal voltage	240 V

Voltage

Operating voltage	240 V AC
-------------------	----------

Materials

Material	Urea-formaldehyde
----------	-------------------

Connection

Type of load	Resistive load
--------------	----------------

Scope of delivery

Component	with 2 fixing screws M3.5 x 30 mm
-----------	-----------------------------------

Equipment

Dimming principle	phase cut-on
-------------------	--------------
