

First Aid Rucksack, Empty

- Comfortable design
- Excellent portability
- 6 compartments to organise the content
- Ideal for offsite use

The First Aid Rucksack is lightweight and has straps that permit easy transportation, making it ideal for offsite use or for use on construction sites. The rucksack is durable and water resistant and can be used in any weather conditions. The First Aid Rucksack has 6 compartments which allow plenty of space to transport the first aid content as well as help organise the items. The First Aid Rucksack comes in green and the white cross and the "First Aid" marking make it easy to recognise the first aid person.
