

Skipper Unicart

Product code: UNICART-01 (Skipper) UNICART-02 (Q)

Overview

Designed with modularity and beauty, the Unicart takes the humble cleaning trolley far into the future, with its pioneering shape and versatility. It is very sustainable, as it can be used to transport Skipper equipment around a facility, then quickly transform into a janitorial cart. Meaning there is no need to purchase two products, reducing carbon footprint.

Key selling points

- Modular
- Suspension for performance
- Versatile

Overview

Thanks to the Skipper Unicart, no longer do post and base carts need to sit gathering dust for months, wasting money. The Skipper Unicart is one step ahead, quickly transforming into a handy janitorial trolley. Simply utilise the optional extras, such as the tray, drawers and bin to aid in cleaning and hygiene tasks. You can also add a waste bin and other Skipper products via the rear connection/clip, enhancing the full versatility of this groundbreaking trolley design.

Key selling points

- Multi-functional
- Transforms the transportation model
- Cost effective multi-purpose usage
- Easy to assemble
