

CPRGMGR

CPRG MGR 10x M20, 3x M32 SEMI BLI GROM

Features

- Both Plastic and Brass Glands acceptable due to no set regulation on cable entry
- Tails Glands allow 2 x tails and 1 x earth cable to enter single entry whilst being individually sealed
- No eddy currents
- Earth cable entry can be easily blanked
- All glands and grommets satisfy IP4X (Maximum requirement as per NICEIC guideline for all cable entry and exit on horizontal planes)
- Cable retention negates requirement for additional tails clamp
- All products are self extinguishing
- Glands are vibration resistant
- Halogen free material

General

Description	10x M20, 3x M32 Semi Blind Grommets
