- Relay contact rated at 250 VAC 5 A (resistive load only) and 48 VDC 2 A (resistive load only)
- Auxiliary monitored input
- DIN rail version available
- Both models feature an integral short-circuit isolator
- Both models approved by LPCB

Lead Time: 1 days

Estimated Despatch (23/11/23)

Pack Quantity EA

Price : £0.00

Overview

Model CHQ-MRC2(SCI) is a mains relay controller providing a single mains rated relay output for the control of such devices as dampers, extractors or plant and equipment shutdown. The monitored input can be used for local power supply fault monitoring or as a general-purpose input

Also available as a DIN Rail mountable version; both models feature an integral short-circuit isolator

- Device Type : I/O Modules
- Lens Colour : No Light
- Tone Specifiable : No
