

60" CHISEL & POINT SUMO CROWBAR BS8020 SHOCKSAFE

The SUMO range was developed to withstand the superior forces applied to long shafted digging tools. The strongest tools ever produced by Carters, the SUMO range, has been designed and tested to withstand load forces upto 250kg when tested on a BS3388 testing rig. This is the strongest spade Carters have ever made, strong enough to take the weight of an average Sumo wrestler!

Individually tested to the exacting specifications of BS8020:2011, Tools for live working. The SUMO range symbolises Carters pioneering attitude towards manufacturing the best tools for professional contractors.
