

TOUGHNESS GUARANTEED

BIKE LOCKS 2023

THE VERY BEST IN BICYCLE SECURITY DESIGNED FOR EVERY CYCLIST

Squire have been at the forefront of lock making since 1780 with a great British history carried down through an incredible eight generations.

In 1963 Squire launched the first range of cycle locks in the UK. We were ahead of our time and have continued to refine our products using modern innovative technology to create some of the toughest locks available, independently attack tested with proven theft resistance.

We stand by our reputation for long-lasting toughness by offering a personal 10-year guarantee from John Squire on our entire bike lock catalogue.

Choose from our unrivalled selection including **Stronghold**[®] maximum security bike locks, the brand new **Straplok**[™] series, heavy-duty Padlock & Chain Sets, unique **Snaplocks**[™], D-Locks, integrated Chain Locks, compact Folding Locks, key and combination Cable Locks and our **inigma**[™] smart technology range.

Peace of mind At Home or On-The-Go, we've got you covered.

TOUGHNESS GUARANTEED

ACCREDITATIONS

SOLD SECURE

Sold Secure are the premier British testing and certification body for all security products. Only locks that have been satisfactorily tested are allowed to carry the Sold Secure mark of approval. Squire offer a wide selection of Sold Secure bike locks ranging from Bronze to Diamond level security suitable for all budgets

BSI KITEMARK™

The BSI Kitemark is recognised worldwide as the ultimate mark of quality, safety and trust. Squire are the first organisation to achieve a BSI Kitemark for the internet of Things (Residential) for bike lock. Our **Inigma™** bikelocks carry the IoT certification while our Inigma operating system carries the Kitemark for IoT Secure Digital Applications.

SECURED BY DESIGN

SBD is the official police security initiative. It is owned by the UK Police Service and focusses on crime prevention through innovative security design. SBD works with industry bodies and test houses to create high level security standards. Many of our cycle locks are SBD approved.

IN-HOUSE TESTING

Our in-house testing procedures are aligned to the highest security standards and testing guidelines set by Sold Secure and Secured By Design.

SOLD SECURE INDEPENDENT ATTACK TESTING

Sold Secure are the UK's premier independent testing and certification house, dedicated to reducing the risk of crime by the assessment of security products through manual attack.

Products which have been satisfactorily assessed will display a Sold Secure Approved quality mark giving assurance that the bicycle lock is up to the task.

Many bicycle insurance providers insist on the use of Sold Secure Approved products within their policy terms and conditions.

Squire offer a wide range of premium Sold Secure Approved bicycle locks suitable for use At Home or On-The-Go, toughness guaranteed for added peace of mind.

The 4 levels of Sold Secure Approved bicycle accreditations are outlined in the table to the right. This details typical attack duration times as well as tools and methods used.

SOLD SECURE

SOLD SECURE RATING

SECURITY RATING 1-10

ATTACK DURATION

ATTACK METHOD

Attack with a higher level of tools such as some power tools, largest bolt croppers and additional machine-based testing

Attack with a high level of tools such as some power tools, large bolt croppers, crowbars and lump hammers

Attack with an enhanced level of tools such as small bolt croppers, large hacksaws, crowbars and stilsons

Attack with a basic level of tools that a thief can easily conceal such as screwdrivers, hammers and hacksaws

PROUDLY SUPPORTING OUR BIKE LOCK AMBASSADORS

World record breakers, professional athletes, presenters and content creators, our team of Squire ambassadors are testament to our 'toughness guaranteed' spirit. They will be putting our products to the ultimate test on the international stage with the added peace of mind that their bikes are safely secured both At Home and On-The-Go!

SCOTTY **LAUGHLAND**

Nationality: UK

Professional Mountain Bike Athlete, Presenter and Content Creator from Scotland. Former DH World Cup and EWS racer now documenting his epic trail rides, bike builds and product test videos via a successful range of social media channels.

AMBASSADORS

MARTHA GILL

Nationality: UK

Professional Mountain Biker competing globally on the EWS and Crankworx circuit. Dual Slalom Gold Medalist at Crankworx Rotorua New Zealand 2022!

NICK SANDERS MBE

Nationality: UK

The ultimate adventurer on two-wheels! Fastest man to circumnavigate the globe by motorcycle. Has ridden around the world seven times, breaking two world records!

STRAPLOK™ OUR NEW RANGE OF INNOVATIVE WEARABLE AND LIGHTWEIGHT SECURITY

Squire's new **STRAPLOK™** range features a high security Sold Secure Approved wearable **STRAPLOK™ 35** as well as two tough, lightweight, and compact multifunctional locks, the **STRAPLOK™ 10** and **STRAPLOK™ COMBI 10** in both key and combination models.

The **STRAPLOK™ 35** is constructed from a multi-cable high tensile steel core that is highly resistant to attack. The silicone outer layer is wrapped using a soft and comfortable Neoprene cover that also helps to protect your bike frame from scratches when in use.

The **STRAPLOK™ 35** and **STRAPLOK™ 10** models both feature a unique and simple to use, patent pending, linear pin tumbler locking mechanism. The dimple key slots into the lock body without the need for turning and the push button releases the strap for a quick and easy operation.

STRAPLOK™ 10 and **STRAPLOK™ COMBI 10** offer a wide variety of short stay security solutions, an ideal deterrent against the opportunist thief. These multi-functional lightweight locks can be used to lock your bikes, helmets, accessories, or wheels.

SECURE YOUR BIKES, WHEELS AND ACCESSORIES WITH A SECURITY CABLE KIT

Extra-long security cable kits providing additional security when locking wheels, accessories or multiple bikes together. These multi-strand high tensile 12mm diameter steel cables are available in three different lengths. Featuring heavy duty, weather resistant protective covers and two looped ends to maximise usability.

Each security cable kit includes our best selling ultra-reliable CP50 4-wheel combination padlock, with an 8mm hardened steel shackle and handy push button opening.

Ideal for use At Home or On-The-Go, in your workshop or when transporting your fleet of bikes to the trail.
