

sabre saw blade S 1156 XHM Progressor for Wood and Metal
tooth pitch: 3-4 mm progressive, blade length: 225 mm, 1 pieces

Version:

- carbide technology for the toughest jobs, e.g. for the demolition of thick and thin materials.
- progressively increasing tooth pitch allows for fast cuts in materials with different densities

Art. no.	71135 610
Model	S 1156 XHM
Manufacturer Article Number	2608653100
Cutting material	Carbide
Saw blade design	Ground
Length	225 mm
Min./max teeth spacing	6-8 mm
Cut	Fast cut
Applications	Wood with hardened metal (5-100 mm), Wood with steel elements (5-100 mm), Cast steel pipes (Ø < 3 Zoll), GFRP (< 250 mm)
Included in delivery	1 piece

EAN-Code

3165140772983
