

MPN: NL2RU44

Product Name: 100 x 100mm Pre-Galvanised Steel Cable Trunking Tee Top Bend Complete With Lid

Manufacturer: Newlec

Category: Trunking & Accessories

Product Description: The NL2RU44 is a tee-connection top cover made up of a rigid steel construction complete with a galvanised surface protection finish. It is designed to provide protection for cables and wiring within a trunking system, particularly within multiple directions/bends. This cable trunking tee top bend is suitable for various applications and ensures efficient cable management.

Key Features:

- Direct support: The NL2RU44 should be directly supported by a suitable support device or devices at appropriate positions to ensure stability and proper cable management.
- Quick and simple installation: The NL2RU44 is designed for easy and hassle-free installation, saving time and effort during the setup process.
- Compliance with standards: This product complies with BS EN 50085-1: 2005 and BS EN 50085-2-1: 2006, ensuring high-quality and reliable performance.
- ETIM class-9.0: The NL2RU44 belongs to the Mini/Maxi trunking flat tee (EC000865) ETIM class, providing compatibility and interoperability with other trunking systems.

Specifications:

- Material: Pre-galvanised steel
- Size: 100 x 100mm
- Finish: Galvanised surface protection
- Compatibility: Suitable for use with trunking systems
- Standards: Complies with BS EN 50085-1: 2005 and BS EN 50085-2-1: 2006

ETIM Class-9.0: Mini/Maxi trunking flat tee (EC000865)

Applications:

- Commercial buildings
- Industrial facilities
- Residential complexes
- Data centres
- Hospitals
- Educational institutions
- Retail stores
- And more
