

Conduit - PVC Round

Description	rigid conduit, plain ends light compression resistance, light impact resistance
Colour	white, similar to RAL 9010
Classification	22212
Compression resistance	> 320 N

Standard: EN 61386-1, EN 61386-21

Compressive strength class	Impact strength	Operating temperature	Bending strength
Light (Class 2)	Light (Class 2)	-5 to +60°C	Rigid

Part No.	Outer diameter	Inner diameter	ps	pl
NLPRC1	20mm	17,4mm	3 m	90 m
NLPRC2	25mm	22,1mm	3 m	90 m

Areas of Recommended Application

Area	
Flush mounted (plaster)	True
Surface mounted	True
Suitable for concrete installation	False
Machine and systems installation	False
Suitable for subsurface installation (screed)	True

Further technical details

Details	
Halogen free	False
Fire retardant version	True
Material	PVC
