

MPN: NLENCTHERM

Product Name: 5-60° Celsius Enclosure Thermostat

Brand: Newlec

Category: Climate Control

Product Description: The Newlec 5-60° Celsius Enclosure Thermostat is designed for controlling fans, heaters, and heat exchangers within enclosures. It is also suitable for use as a signal generator for monitoring the internal temperature of enclosures.

Key Features:

- Time-saving connection technique using a terminal strip with a screw connection from the outside
- Bi-metal controller as a temperature-sensitive element with thermal feedback

Specifications:

- Adjustment range temperature: 50 - 60°C
- Digital indication: No

ETIM Class-9.0: Thermostat (switchgear cabinet) (EC002014)

ETIM Features:

- Adjustment range temperature (°C): 50 - 60
- With digital indication: No

Applications:

- Suitable for controlling fans, heaters, and heat exchangers within enclosures
- Can be used as a signal generator for monitoring the internal temperature of enclosures
