

MPN: NLSDM415CSW

Product Name: 15kW 400V IP55 Steel Enclosed Motor Starter With Isolator

Brand: Newlec

Category: Motor Starters

Product Description The NLSDM415CSW is a robust and reliable 15kW 400V motor starter designed for industrial applications. It features an IP55 steel enclosure, providing protection against dust and water ingress, making it suitable for a wide range of environments. The motor starter also includes an isolator for added safety and control.

Key Features

- Key hole mounting for easy installation
- Removable connectors for the main power supply and motor power terminal
- Relay output for enhanced control
- Memory module for storing settings
- CAN connection with shield plate fixation (option) for flexible connectivity
- HMI interface with a hot-pluggable control panel (keypad included) for user-friendly operation
- I/O Terminal with shield plate for secure connections
- Stainless steel pozidrive fixing screws for lid for durability
- Knockouts at the top and bottom for versatile cable entry

Specifications:

- Power Rating: 15kW
- Voltage: 400V
- Degree of Protection: IP55
- Material: Steel Enclosure
- Isolator: Included

ETIM Class-9.0: Motor starter/Motor starter combination (EC001037)

ETIM Features:

- Kind of motor starter: Star-delta starter (EV004004)
- Voltage type for actuating: AC (EV000460)
- Degree of protection (IP rating): IP55 (EV006420)

Applications:

- Suitable for a wide range of industrial motor control applications, including pumps, conveyors, and other machinery requiring reliable and durable motor starting solutions.
