

MPN: NLWIFISTAT

Product Name: Programmable Digital Room Thermostat With Wifi Control

Brand: Newlec

Category: Thermostats & Programmers

Product Description: The NLWIFISTAT is a Wi-Fi controlled thermostat that allows the user to program, change, and check their heating status from anywhere. It offers convenient control and monitoring of heating systems, providing flexibility and energy efficiency.

Key Features:

- Both Android and IOS Apps available
- Works with Wi-Fi and 4G
- Up to 6 time/temperature periods per day
- 5°C to 35°C set temperature range adjusted in 0.5°C steps
- Replaces existing wall thermostat
- Supplied with surface mounting box
- 5 operating modes including Auto, Frost, On, Off, and holiday
- Temporary override until the next program change
- Power supply module for easy connection to the boiler
- Fits to BS flush mount wall box

Specifications:

- Maximum contact voltage (V): 230
- Maximum contact load (A): 6
- Colour: White (EV000202)

ETIM Class-9.0: Room thermostat (EC010927)

ETIM Features:

- With receiver: Yes
- Maximum contact voltage (V): 230
- Maximum contact load (A): 6
- Colour: White (EV000202)
- Height (mm): 90
- Width (mm): 90
- Degree of protection (IP rating): IP20 (EV006405)

Applications:

- Suitable for residential and commercial heating control applications
- Ideal for users seeking remote access and control of their heating systems
