

MPN: NL891

Product Name: 100mm 10 Meter Length Insulated + Acoustic Rated Flexible Ducting

Brand: Newlec

Category: Channel & Ducting Accessories

Product Description: The NL891 is a high-quality insulated and acoustic rated flexible ducting designed for use in HVAC systems. It is specifically engineered for applications where the duct passes through unheated areas, providing excellent thermal and acoustic insulation properties. The ducting is constructed with a 25mm fiberglass core covered with an aluminum/polyester laminate, ensuring durability and efficient airflow. The 10-meter length provides flexibility in installation, making it suitable for various residential and commercial projects.

Key Features:

- Insulated and acoustic rated design
 - Suitable for use in unheated areas
 - Length: 10 meters
 - Diameter: 150mm
 - 25mm fiberglass core with aluminum/polyester laminate
 - Spigot Diameter: 150mm
-

Specifications:

- Length: 10 meters
- Diameter: 150mm
- Material: Fiberglass core with aluminum/polyester laminate
- Spigot Diameter: 150mm

ETIM Class-9.0: Mini/Maxi trunking (EC000059)

ETIM Features:

- Width (mm): 100
- Colour: Silver (EV000205)

Applications:

- HVAC systems
- Residential and commercial ventilation
- Industrial air distribution
