

MPN: NLTB1G

Product Name: 20mm Galvanised Steel Back Box Outlet

Brand: Newlec

Category: Steel Conduit

Product Description: The 20mm Galvanised Steel Back Box Outlet by Newlec is a robust and reliable solution for surface and sub-surface cable management. This back box outlet is designed for use in conjunction with conduit tube cable management systems, providing a secure and durable housing for electrical connections. Its hot dip galvanised finish ensures long-lasting protection against corrosion, making it suitable for a wide range of indoor and outdoor applications.

Key Features:

- Compliant to London Underground (LU) Standard 1-085 for use on surface and sub-surface locations
- Hot Dip Galvanised finish for enhanced durability and corrosion resistance
- Designed for use in conjunction with conduit tube cable management system

ETIM Class-9.0: Flush mounted box/housing (EC002601)

ETIM Features:

- For conduit/tube diameter: 20 mm (EV006982)
- Material: Steel (EV000179)

Applications:

- Suitable for use in various industrial, commercial, and residential settings
- Ideal for installations requiring compliance with London Underground standards
