

MPN: NLLN2G

Product Name: 25mm Galvanised Steel Hexagonal Locknut

Brand: Newlec

Category: Metallic Conduit Accessories

Product Description: The 25mm Galvanised Steel Hexagonal Locknut by Newlec is a high-quality locking nut designed for use in metallic conduit systems. It provides secure fastening and is suitable for both surface and sub-surface locations, meeting the stringent standards required for use in London Underground (LU) Standard 1-085 compliant installations. This locknut is also compliant with BS EN 61386-1: 2008, ensuring reliability and safety in various applications.

Key Features:

- Compliant to London Underground (LU) Standard 1-085 for use on surface and sub-surface locations
 - Compliant to BS EN 61386-1: 2008
 - Durable galvanised steel construction
 - Hexagonal design for easy installation and removal
 - Suitable for use with cable glands
-

Specifications:

- Material: Galvanised Steel
- Size: 25mm
- Type: Hexagonal Locknut
- Compliance: London Underground (LU) Standard 1-085, BS EN 61386-1: 2008

ETIM Class-9.0: Locknut for cable gland (EC000940)

Applications:

- Suitable for use in metallic conduit systems
- Ideal for applications requiring secure fastening and compliance with industry standards
