

**MPN:** NLHSP1G

**Product Name:** 20mm Galvanised Steel Hexagonal Threaded Stop Plug

**Brand:** Newlec

**Category:** Metallic Conduit Accessories

---

**Product Description:** The 20mm Galvanised Steel Hexagonal Threaded Stop Plug by Newlec is designed to provide a secure and reliable sealing solution for metallic conduits. This high-quality stop plug is manufactured to the highest standards, ensuring durability and performance in various electrical installations. Its threaded design allows for easy installation and removal, making it an essential component for sealing conduit ends and ensuring the integrity of electrical systems.

---

**Key Features:**

- Compliant to BS EN 61386-1: 2008
- Durable galvanised steel construction
- Hexagonal design for easy installation and removal
- Reliable sealing for metallic conduits
- Suitable for various electrical installations

---

**Specifications:**

- Material: Galvanised Steel
- Size: 20mm
- Type: Hexagonal Threaded Stop Plug
- Compliance: BS EN 61386-1: 2008

---

## **ETIM Class-9.0:** Blanking plug (EC000032)

### **ETIM Features:**

- Material qualifier: Other (EV000154)

---

### **Applications:**

- Suitable for use in industrial, commercial, and residential electrical installations
- Ideal for sealing and securing metallic conduits in various environments
