

MPN: NLLN1G

Product Name: 20mm Galvanised Steel Hexagonal Locknut

Brand: Newlec

Category: Metallic Conduit Accessories

Product Description: The NLLN1G is a high-quality 20mm Galvanised Steel Hexagonal Locknut designed for use in metallic conduit systems. It provides secure fastening and protection for cable installations in various industrial and commercial applications.

Key Features:

- Compliant to BS EN 61386-1: 2008
- Durable galvanised steel construction
- Hexagonal design for easy installation and removal
- Reliable locking mechanism for cable gland applications

Specifications:

- Size: 20mm
- Material: Galvanised Steel
- Type: Hexagonal Locknut
- Compliance: BS EN 61386-1: 2008

ETIM Class-9.0: Locknut for cable gland (EC000940)

Applications:

- Suitable for use in industrial and commercial environments
- Ideal for securing cable glands in metallic conduit systems
