

**MPN:** NLSC2G

**Product Name:** 25mm Galvanised Steel Solid Straight Conduit Coupler

**Brand:** Newlec

**Category:** Metallic Conduit Accessories

---

**Product Description:** The 25mm Galvanised Steel Solid Straight Conduit Coupler by Newlec is a durable and reliable solution for joining lengths of conduit in electrical installations. This solid straight coupler is designed to securely connect 25mm diameter metallic conduits, providing a robust and long-lasting connection. The hot dip galvanized surface protection ensures corrosion resistance, making it suitable for both indoor and outdoor applications.

---

**Key Features:**

- Compliant to BS EN 61386-1: 2008
- Durable galvanised steel construction
- Designed for use with 25mm diameter metallic conduits
- Provides a secure and reliable connection
- Suitable for indoor and outdoor applications

---

**Specifications:**

- Material: Galvanised Steel
- Surface Protection: Hot dip galvanized
- Nominal Tube Diameter: 25mm

---

## ETIM Class-9.0: Coupler for conduit (EC000939)

### ETIM Features:

- Material qualifier: Steel (EV000179)
- Surface protection: Hot dip galvanized (EV000254)
- For nominal tube diameter (mm): 25

---

### Applications:

- Suitable for use in electrical installations requiring the secure connection of 25mm metallic conduits.
