

MPN: NLSC1G

Product Name: 20mm Galvanised Steel Solid Straight Conduit Coupler

Brand: Newlec

Category: Metallic Conduit Accessories

Product Description: The NLSC1G 20mm Galvanised Steel Solid Straight Conduit Coupler by Newlec is designed to securely connect two lengths of 20mm conduit, providing a reliable and durable solution for whole house ventilation systems. This solid straight conduit coupler is manufactured using high-quality galvanised steel, ensuring robustness and longevity in various installation environments.

Key Features:

- High-quality galvanised steel construction for durability
- Designed for use with 20mm conduit
- Secure and reliable connection for whole house ventilation systems
- Suitable for a wide range of installation environments

Specifications:

- Material: Galvanised Steel
- Nominal Tube Diameter (mm): 20

ETIM Class-9.0: Coupler for conduit (EC000939)

ETIM Features:

- Surface protection: Hot dip galvanized (EV000254)
- For nominal tube diameter (mm): 20

Applications:

- Whole house ventilation systems
- Industrial and commercial conduit installations
