

MPN: NL100RGW

Product Name: 100mm Ceiling White Ventilation Round Grille Ceiling

Brand: Newlec

Category: Whole House Ventilation Systems

Product Description: A ventilation grille is a device that allows air to flow into or out of a room. It is typically made of metal or plastic and has a grid-like pattern that allows air to pass through while preventing objects from entering. Ventilation grilles are often used in ceilings, walls, and floors to provide ventilation in homes, businesses, and other buildings. A round ceiling ventilation grille with a diameter of 100mm is a type of ventilation grille that is commonly used in ceilings. It is typically made of white plastic and has a grid-like pattern that allows air to pass through while preventing objects from entering. Round ceiling ventilation grilles are often used in bathrooms, kitchens, and other rooms where ventilation is needed.
