

MPN: NL2CHTIMER

Product Name: 2 Channel Digital Heating Programmer

Brand: Newlec

Category: Thermostats & Programmers

Product Description: The 2 Channel Digital Heating Programmer by Newlec is a versatile and reliable solution for controlling central heating and hot water systems. With its user-friendly interface and advanced features, this programmer offers precise control over heating schedules, making it an essential component for modern heating systems.

Key Features:

- Operating Voltage: 230V AC
- Number of Channels: 2
- SPDT – Both channels
- Program: 7 Day (Individual day) or 5-2 Day (Weekday/weekend)
- Boost Function: 1, 2 or 3 hour for both central heating and hot water
- Summer/winter Changeover: Daylight saving, GMT or BST
- Holiday Mode: 0 to 31 day programme suspension
- Power Reserve: 7 day (Non-replaceable rechargeable battery)
- Switch Rating: 3A Resistive, 1A Inductive
- Dimensions: Height 90mm, Width 135mm, Depth 30mm

Specifications:

- Operating Voltage: 230V AC
- Number of Channels: 2
- Program Options: 7 Day, 5-2 Day
- Boost Function Duration: 1, 2, or 3 hours
- Summer/Winter Changeover Options: Daylight saving, GMT, BST

ETIM Class-9.0: Room thermostat (EC010927)

ETIM Features:

- Colour: White (EV000202)

Applications:

- Suitable for residential and commercial heating control systems
- Ideal for use in buildings with zoned heating requirements
- Perfect for upgrading existing heating programmers to improve energy efficiency and user control
