

**MPN:** NLTHERMDIG

**Product Name:** 1 Channel Programmable Digital Thermostat

**Brand:** Newlec

**Category:** Thermostats & Programmers

---

**Product Description:** The 1 Channel Programmable Digital Thermostat by Newlec offers precise temperature control for enhanced comfort and energy efficiency. This programmable thermostat features a user-friendly interface and a range of advanced functions to meet various heating and cooling requirements. With its sleek design and reliable performance, it is an ideal choice for both residential and commercial applications.

---

**Key Features:**

- 6 temperature control periods per day
- Switch rating at 230V (3A resistive, 1A inductive)
- Volt-free change over contacts
- Frost mode (5°C)
- Temporary override until next program
- Copy program function & optimum start function
- Blue illuminated screen on setting
- Automatic daylight saving adjustment
- Remembers settings even after a power cut
- Powered by 2 x AA batteries

---

**Specifications:**

- Input Voltage: 230V
- Power Source: 2 x AA batteries
- Colour: White
- Display: Blue illuminated screen
- Switch Rating: 3A resistive, 1A inductive
- Control Periods: 6 per day
- Contact Type: Volt-free change over contacts

---

**ETIM Class-9.0:** Room thermostat (EC010927)**ETIM Features:**

- Colour: White (EV000202)

---

**Applications:**

- Ideal for residential and commercial heating and cooling systems
- Suitable for use in various HVAC applications
- Compatible with a wide range of heating and cooling equipment
