

MPN: NL786

Product Name: Lightweight Heavy Duty Complete With Lid Earth Rod Inspection Pit

Brand: Newlec

Category: Earth Rods

Product Description: The Lightweight Heavy Duty Complete With Lid Earth Rod Inspection Pit (MPN: NL786) is a high-quality product designed for efficient and reliable grounding solutions. It is manufactured from a high-performance polymer, ensuring durability and longevity. The earth rod inspection pit is specifically designed for use with earth rods, providing a secure and accessible enclosure for inspection purposes.

Key Features:

- Manufactured from high-performance polymer for enhanced durability.
 - Grey plastic lockable lid for added security.
 - High load bearing capacity of 5,000kg (static load) for reliable performance.
 - UV stable and chemical resistant for long-lasting use.
-

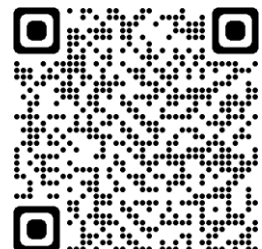

Specifications:

- Material: High-performance polymer
- Colour: Grey
- Load Bearing Capacity: 5,000kg (static load)
- UV Stability: Yes
- Chemical Resistance: Yes

ETIM Class-9.0: Earth inspection pit (EC002874)**ETIM Features:**

- Material: Plastic (EV000139)

Applications: The Lightweight Heavy Duty Complete With Lid Earth Rod Inspection Pit is suitable for various applications, including residential, commercial, and industrial settings. It is commonly used in electrical grounding systems to ensure proper safety and functionality.
