

MPN: NL792

Product Name: 5/8 Inch Copper Bonded Earth Rod Driving Stud

Brand: Newlec

Category: Earth Rods

Product Description: The 5/8 Inch Copper Bonded Earth Rod Driving Stud by Newlec is a high-strength steel driving head that can be used multiple times. It allows power hammers to be used for deep driving, ensuring efficient and effective installation of earth rods.

Key Features:

- Counter bored couplings made from high copper content alloy.
 - High corrosion resistance and high strength.
 - Long-lasting durability.
-

Specifications:

- Material: Copper
- Surface Protection: Untreated

ETIM Class-9.0: Spray Accessories for earthing and lightning (EC000490)

ETIM Features:

- Type of accessory/spare part: Other (EV000154)
- Material: Copper (EV000138)
- Surface protection: Untreated (EV006034)

Applications:

- Suitable for various applications requiring efficient and reliable grounding, such as electrical installations, lightning protection systems, and grounding of equipments.
