MPN: NLLRBE

Product Name: Emergency Door Release Surface Green Call Point

Brand: Newlec

Category: Call Points

Product Description: A call point is used in emergency situations by sounding an alarm and lighting up beacons, depending on your configuration. The purpose of this product is to alert you of an emergency once pressed by the user by activating the alarm. This type of call point is easy to install and features a single pole. It is resettable and anti-tamper proof, making it highly secure. It is recommended to be used when installing an electromagnetic lock. The call point is designed to be fitted to the internal side of a fire exit to allow emergency egress at the time of a fire. It also comes with test/maintenance keys for easy maintenance and is anti-tamper proof.
