

MPN: NLTB10

Product Name: M10 x 80mm Through Bolt Anchor Fixing

Brand: Newlec

Category: Bolts & Nuts

Product Description: The M10 x 80mm Through Bolt Anchor Fixing by Newlec is a reliable and sturdy fastening solution for various applications. This anchor fixing is designed to provide secure and long-lasting connections in concrete and dense natural stone. It is particularly suitable for fixing heavy machinery such as generators, as well as for brickwork support, angle cladding, and curtain walling systems. With its easy-to-use through fixing design, this anchor fixing ensures efficient installation and reliable performance.

Key Features:

- Ideal for fixing brickwork support, angle cladding, and curtain walling systems.
- Easy to use through fixing for concrete and dense natural stone.
- Suitable for fixing heavy machinery such as generators.

Applications:

- Construction industry: Fixing brickwork support, angle cladding, and curtain walling systems.
- Industrial machinery: Suitable for fixing heavy machinery such as generators.
- Infrastructure projects: Used in bridges, tunnels, and highways for various structural elements.
- Renovation and retrofitting: Reinforcing and strengthening existing structures.
- General applications: Assembly of furniture, installation of fixtures, and other through bolt anchor fixing requirements
