

MPN: NL785

Product Name: Earth Rod to Earth Tape Conductor Clamp Copper for up to 25 x 12mm Earth Tapes

Brand: Newlec

Category: Earth Clamps

Product Description: The NL785 Earth Rod to Earth Tape Conductor Clamp is designed to securely connect earth tapes to earth rods. It is suitable for use with earth tapes measuring up to 25 x 12mm. The clamp features a high strength copper alloy body and screws, ensuring durability and reliable electrical conductivity. The Type G Rod to cable clamp design allows for easy installation and maintenance. The clamp body is made of silicon aluminium bronze, while the screws are made of phosphor bronze.

Key Features:

- High strength copper alloy body and screws.
 - Type G Rod to cable clamp design.
 - Silicon aluminium bronze body with phosphor bronze screw.
-

Specifications:

- Suitable for: Other
- Clamping range round conductor (mm): 12 – 25
- Material: Copper
- Surface protection: Untreated

ETIM Class-9.0: Earth terminal clamp (EC000491)

ETIM Features:

- Suitable for: Other (EV000154)
- Clamping range round conductor (mm): 12 - 25
- Material: Copper (EV000138)
- Surface protection: Untreated (EV006034)

Applications:

Suitable for various applications requiring secure connection of earth tapes to earth rods, such as electrical grounding systems in residential, commercial, and industrial settings.
