

**MPN:** NL784

**Product Name:** Earth Rod to Cable Clamp Copper for up to 70.0mm<sup>2</sup> Cables

**Brand:** Newlec

**Category:** Earth Clamps

---

**Product Description:** The Earth Rod to Cable Clamp Copper is designed for secure and efficient connection of cables with a diameter range of 16mm to 70.0mm<sup>2</sup> to earth rods. It is suitable for various applications where reliable earthing is required. The clamp features a high strength copper alloy body and screws, ensuring durability and excellent conductivity. With its Type G Rod to cable clamp design, it provides a reliable and secure connection for effective earthing.

---

**Key Features:**

- Earth Rod Clamps.
  - High strength copper alloy body and screws.
  - Type G Rod to cable clamp.
- 

**Specifications:**

- Construction type: Connection clamp
- Diameter earthing connection: 16 mm
- Material: Copper
- Surface protection: Untreated
- Clamping range cable (mm<sup>2</sup>): 16 – 70

---

## **ETIM Class-9.0:** Connection clamp for earth rods (EC001465)

### **ETIM Features:**

- Construction type: Connection clamp (EV000892)
- Diameter earthing connection: 16 mm (EV006965)
- Material: Copper (EV000138)
- Surface protection: Untreated (EV006034)
- Clamping range cable (mm<sup>2</sup>): 16 - 70

---

### **Applications:**

- Suitable for various applications requiring reliable earthing.
- Ideal for electrical installations, grounding systems, and lightning protection.
