

**MPN:** NLCC11

**Product Name:** Red 0.25-1.5mm<sup>2</sup> Pre-Insulated Ring Terminal M5 Stud

**Brand:** Newlec

**Category:** Insulated Crimps

---

**Product Description:** The Red 0.25-1.5mm<sup>2</sup> Pre-Insulated Ring Terminal M5 Stud is a high-quality electrical connector designed for secure and reliable connections. It is suitable for a wide range of applications in various industries. The terminal is manufactured with precision using electrolytic copper wire with a purity greater than 99.9%. It is electrolytically tin-plated to prevent oxidization and ensure long-lasting performance. The terminal is annealed to guarantee optimum ductility, allowing for easy installation and removal. With its PVC insulation, it provides excellent electrical insulation and protection against environmental factors. The Red 0.25-1.5mm<sup>2</sup> Pre-Insulated Ring Terminal M5 Stud is designed to facilitate the introduction of the conductor, making installation quick and hassle-free.

---

#### Key Features:

- PVC insulation for excellent electrical insulation and protection.
- Temperature range: -20°C to +80°C.
- Manufactured from electrolytic copper wire with a purity greater than 99.9%.
- Electrolytically tin-plated to avoid oxidization.
- Annealed for optimum ductility.
- Facilitated introduction of the conductor.

---

## **ETIM Class-9.0:** Solderless copper terminals for copper conductors (EC001052)

### **ETIM Features:**

- Bolt dimension (metric): 5
- Insulation: Polyvinyl chloride (PVC) (EV000163)
- Colour insulation: Red (EV000233)
- Nominal cross section (mm<sup>2</sup>): 0.25 - 0.25
- Sleeve form: Short (EV009889)
- Material: Copper (EV000138)

---

### **Applications:**

- Suitable for various electrical applications
- Ideal for use in industries such as automotive, electrical, and manufacturing
