

MPN: NL800

Product Name: 2.5-10mm Brass Easy Earth Clamp

Brand: Newlec

Category: Earth Clamps

Product Description: The Earth Clamp Easy 2.5-10mm Brass is a high-quality, versatile earth clamp that is easy to use and install. It is made from brass, which is a strong and durable material that is resistant to corrosion. The clamp is designed to fit cables that are 2.5-10mm in diameter, making it a versatile option for a variety of applications. The clamp is also equipped with a quick-release mechanism, which makes it easy to install and remove.

Key Features:

- Suitable for a wide range of earthing applications e.g. radiators, sinks, etc.
- No drilling or special tools needed.
- Made from brass, a strong and durable material that is resistant to corrosion.
- Fits cables that are 2.5-10mm in diameter, making it versatile for various applications.
- Equipped with a quick-release mechanism for easy installation and removal.
- Corrosion-resistant, suitable for use in harsh environments.
- Versatile, suitable for a variety of applications.
- Easy to use and install, saving time and hassle.

ETIM Class-9.0: Earth terminal clamp (EC000491)

ETIM Features:

- Suitable for: Round conductor (EV001514)
- Connection cross-section (mm²): 2.5 - 10
- Clamping range round conductor (mm): 2.5 - 10
- Material: Brass (EV000149)

Applications:

- Suitable for various earthing applications, including but not limited to: Radiators
- Sinks
- And more Renewable energy projects
