

MPN: NLPRFIT63508

Product Name: 6.35 x 0.8mm Red 0.25-1.5mm² Fully Insulated Disconnect Terminal

Brand: Newlec

Category: Insulated Crimps

Product Description: The 6.35 x 0.8mm Red 0.25-1.5mm² Fully Insulated Disconnect Terminal is a high-quality electrical connector designed for secure and reliable connections. It is suitable for various applications that require a fully insulated disconnect terminal. This terminal is manufactured by Newlec, a trusted brand known for its exceptional electrical products.

Key Features:

- Insulation sleeve in Polycarbonate for enhanced durability and protection.
 - Wide temperature range of -20°C to +115°C for versatile usage.
 - Manufactured from Brass Strip with a purity greater than 99.9% for excellent conductivity.
 - Electrolytically tin-plated to avoid oxidization and ensure long-lasting performance.
 - Halogen-free construction for safety and environmental friendliness.
 - Facilitated introduction of the conductor for easy installation.
-

Specifications:

- Insulation: Polyvinyl chloride (PVC)
- Colour insulation: Red
- Nominal cross-section (mm²): 0.25 – 0.25
- Sleeve form: Long

ETIM Class-9.0: Solderless copper terminals for copper conductors (EC001052).

ETIM Features:

- Insulation: Polyvinyl chloride (PVC) (EV000163)
- Colour insulation: Red (EV000233)
- Nominal cross-section (mm²): 0.25 – 0.25
- Sleeve form: Long (EV009894)
- Suitable for round conductors: No
- Material: Copper (EV000138)

Applications:

- This fully insulated disconnect terminal is suitable for a wide range of applications, including electrical installations, automotive wiring, industrial machinery, and more. It provides a reliable and secure connection for various electrical conductors.
