

MPN: NLPBBT63508

Product Name: Blue 1.5-2.5mm² Partially Insulated Disconnect Piggyback Terminal 6.35x0.8mm

Brand: Newlec

Category: Crimp Terminals

Product Description: The Blue 1.5-2.5mm² Partially Insulated Disconnect Piggyback Terminal 6.35x0.8mm, manufactured by Newlec, is a high-quality crimp terminal designed for efficient electrical connections. This terminal is suitable for use with copper conductors and offers reliable performance in various applications. It features an insulation sleeve made of Polycarbonate, providing excellent electrical insulation and durability. With a temperature range of -20°C to +115°C, this terminal can withstand a wide range of operating conditions. The terminal is manufactured from Brass Strip with a purity greater than 99.9% and is electrolytically tin-plated to prevent oxidization. It is also halogenfree, ensuring safety and environmental compliance. The design of this terminal facilitates easy introduction of the conductor, making installation quick and hassle-free.

Key Features:

- Insulation sleeve in Polycarbonate.
- Temperature range: -20°C to +115°C.
- Manufactured from Brass Strip with a purity greater than 99.9%.
- Electrolytically tin-plated to avoid oxidization.
- Halogen-free.
- Facilitated introduction of the conductor.

Specifications:

- Insulation: Polyvinyl chloride (PVC)
- Colour insulation: Blue
- Nominal cross section (mm²): 1.5 1.5
- Sleeve form: Short

ETIM Class-9.0: Solderless copper terminals for copper conductors (EC001052)

ETIM Features:

o Insulation: Polyvinyl chloride (PVC) (EV000163)

Colour insulation: Blue (EV000080)

o Nominal cross section (mm²): 1.5 - 1.5

Sleeve form: Short (EV009889)Material: Copper (EV000138)

Applications:

- This Blue 1.5-2.5mm² Partially Insulated Disconnect Piggyback Terminal 6.35x0.8mm is suitable for various applications, including but not limited to: Electrical installations
- Industrial equipment
- Automotive wiring
- Control panels
- HVAC systems
- Lighting fixtures
