

MPN: NLBRMT

Product Name: Red 0.25-1.5mm Pre-Insulated Male Bullet Connector

Brand: Newlec

Category: Insulated Crimps

Product Description: The Red 0.25-1.5mm² Pre-Insulated Male Bullet Connector, manufactured by Newlec, is a reliable and efficient solution for electrical connections. This connector is designed to provide a secure and insulated connection for wires with a cross-sectional area ranging from 0.25mm² to 1.5mm². It is suitable for various applications in the electrical industry, ensuring a safe and durable connection.

Key Features:

- Insulation sleeve in Polycarbonate for enhanced durability and protection.
 - Temperature range of -20°C to +115°C, allowing for reliable performance in various environments.
 - Manufactured from Brass Strip with a purity greater than 99.9%, ensuring high conductivity and durability.
 - Electrolytically tin-plated to avoid oxidization, providing long-lasting performance.
 - Halogen-free construction for improved safety.
 - Facilitated introduction of the conductor for easy installation.
-

Specifications:

- Insulation: Polyvinyl chloride (PVC)
- Colour insulation: Red
- Nominal cross-section (mm²): 0.25 - 0.25
- Sleeve form: Short

ETIM Class-9.0: Solderless copper terminals for copper conductors (EC001052)

ETIM Features:

- Insulation: Polyvinyl chloride (PVC) (EV000163)
- Colour insulation: Red (EV000233)
- Nominal cross-section (mm²): 0.25 - 0.25
- Sleeve form: Short (EV009889)
- Suitable for solid cores: No
- Suitable for fine strand conductors: Yes
- Suitable for round conductors: Yes
- Material: Copper (EV000138)

Applications:

- Suitable for use in various electrical applications, including automotive, industrial, and household wiring.
- Ideal for connecting wires in lighting fixtures, electrical panels, and control systems.
