

MPN: NLBBT9

Product Name: 9mm Blue 1.5-2.5mm Pre-Insulated Blade Terminal

Brand: Newlec

Category: Insulated Crimps

Product Description: The NLBBT9 is a 1.5-2.5mm pre-insulated blade terminal designed for secure and reliable electrical connections. It is suitable for various applications that require insulated crimps. The terminal is manufactured by Newlec, a trusted brand known for its high-quality electrical products.

Key Features:

- PVC insulation for enhanced safety and protection.
 - Temperature range of -20°C to +80°C, suitable for a wide range of environments.
 - Manufactured from electrolytic copper wire with a purity greater than 99.9% for excellent conductivity.
 - Electrolytically tin-plated to prevent oxidization and ensure long-lasting performance.
 - Annealed to guarantee optimum ductility, allowing for easy installation and flexibility.
 - Facilitated introduction of the conductor for convenient and efficient wiring.
-

Specifications:

- Insulation: Polyvinyl chloride (PVC)
- Colour insulation: Blue
- Nominal cross section (mm²): 1.5 - 1.5
- Sleeve form: Short
- Suitable for solid cores: No

ETIM Class-9.0: Solderless copper terminals for copper conductors (EC001052)

ETIM Features:

- Insulation: Polyvinyl chloride (PVC) (EV000163)
- Colour insulation: Blue (EV000080)
- Nominal cross section (mm²): 1.5 - 1.5
- Sleeve form: Short (EV009889)
- Suitable for solid cores: No
- Suitable for fine strand conductors: Yes
- Suitable for round conductors: Yes
- Material: Copper (EV000138)

Applications: The NLBBT9 is suitable for a wide range of applications including electrical installations, automotive wiring, industrial equipment, and more. It provides a reliable and secure connection for various electrical conductors.
