

MPN: NLPYFT63508

Product Name: Insulated Yellow for 4.0-6.0mm² Diameter Cables Push On Female Crimp Terminal

Brand: Newlec

Category: Crimp Terminals

Product Description: The Insulated Yellow Push On Female Crimp Terminal is designed for use with cables ranging from 4.0mm² to 6.0mm² in diameter. It provides a secure and reliable connection for various electrical applications. The terminal is manufactured by Newlec, a trusted brand known for its high-quality electrical products.

Key Features:

- Insulation sleeve made of Polycarbonate material for enhanced durability and protection.
 - Wide temperature range of -20°C to +115°C, ensuring reliable performance in various environments.
 - Made from Brass Strip with a purity greater than 99.9%, ensuring excellent conductivity.
 - Electrolytically tin-plated to prevent oxidization and ensure long-lasting performance.
 - Halogen-free construction for improved safety and environmental friendliness.
 - Facilitated introduction of the conductor for easy installation.
-

Specifications:

- Insulation: Polyvinyl chloride (PVC)
- Colour insulation: Yellow
- Nominal cross-section (mm²): 4 - 4
- Sleeve form: Short

ETIM Class-9.0: Solderless copper terminals for copper conductors (EC001052)

ETIM Features:

- Insulation: Polyvinyl chloride (PVC) (EV000163)
- Colour insulation: Yellow (EV000234)
- Nominal cross-section (mm²): 4 - 4
- Sleeve form: Short (EV009889)
- Material: Copper (EV000138)

Applications:

- Suitable for various electrical applications requiring a secure and insulated connection for 4.0-6.0mm² diameter cables.
