

MPN: NL5MPH

Product Name: Wall Mounted 0.5kw with Bracket Frost Watch Heater

Brand: Newlec

Category: Tubular Heaters & Frost Protection

Product Description: The NL5MPH Frost Watch Heater is a reliable solution for frost protection. With a power rating of 500W and thermostatic control, it ensures efficient and controlled heating. The heater is equipped with overheat protection and a mains indicator for added safety. It can be conveniently used as a free-standing unit or wall-mounted, and when floor mounted, it can be positioned horizontally or vertically. The heater is also splashproof, making it suitable for various applications.

Key Features:

- Frost protection.
- Mains neon indicator.
- Overheat protection.
- Variable thermostat
- Free standing or wall mounted (can be used either horizontally or vertically when floor mounted).
- Splashproof.

Specifications:

- Power (W): 500
- Colour: Black
- Height (mm): 330
- Width (mm): 225
- Depth (mm): 150

ETIM Class-9.0: Radiator (electric) (EC000593)

ETIM Features:

- Power (W): 500
- Colour: Black (EV000206)
- Height (mm): 330
- Width (mm): 225
- Depth (mm): 150
- Mounting method: Wall model (EV000869)
- With decorative finish: No
- Position control panel: Other (EV000154)
- Degree of protection (IP rating): IP24 (EV006408)

Applications:

- Frost protection for various environments
- Suitable for residential and commercial use
- Ideal for preventing freezing in small spaces
