

MPN: NLS4320E

Product Name: M8 Brass Full Hexagon Nut

Brand: Newlec

Category: Bolts & Nuts

Product Description: The M8 Brass Full Hexagon Nut is a high-quality fastening component designed to securely join screws and bolts. Made from durable brass material, this nut ensures reliable performance and longevity. Its hexagonal shape allows for easy installation and removal using standard tools. The M8 size makes it suitable for various applications requiring a metric thread size of 8 and an M thread type.

Key Features:

- Used to fasten screws and bolts securely together.
 - Hexagonal Full Nut design for easy installation and removal.
 - Made from durable and corrosion-resistant brass material.
 - Suitable for applications requiring M8 metric thread size and M thread type.
 - Provides reliable performance and longevity.
-

Specifications:

- Material: Brass
- Surface Protection: Untreated
- Thread Size (Metric): 8
- Thread Type: M

ETIM Class-9.0: Hexagon nut (EC000129)

ETIM Features:

- Material: Brass (EV000149)
- Surface Protection: Untreated (EV006034)
- Thread Size (Metric): 8
- Thread Type: M (EV003295)

Applications:

- Construction projects
- Automotive industry
- Electrical installations
- Machinery and equipment assembly
- DIY projects
