

MPN: NLSSS1040

Product Name: M10 x 40mm Hexagon Head Brass Set Screw

Brand: Newlec

Category: Screws

Product Description: The M10 x 40mm Hexagon Head Brass Set Screw is a high-quality screw designed for various applications. It is made of durable brass material, ensuring excellent strength and corrosion resistance. This fully threaded set screw is ideal for securely fastening components together. With its precise M10 x 40mm dimensions, it offers a reliable and secure connection.

Key Features:

- M10 x 40mm size.
 - Hexagon head design.
 - Fully threaded for maximum grip.
 - Made of high-quality brass material.
 - Provides excellent strength and corrosion resistance.
 - Suitable for various applications.
-

Specifications:

- Material: Brass
- Length (mm): 40
- Head type: Hexagon

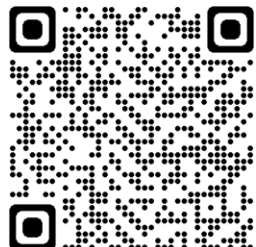

ETIM Class-9.0: Wood / chipboard screw (EC002385)

ETIM Features:

- Material: Brass (EV000149)
- Length (mm): 40
- Head type: Hexagon (EV000203)

Applications:

- This M10 x 40mm Hexagon Head Brass Set Screw is commonly used in industries such as construction, manufacturing, and engineering. It is suitable for securing components, machinery, and equipment in various applications where a reliable and durable fastening solution is required.
