

MPN: NLSSS825

Product Name: M8 x 25mm Hexagon Head Brass Set Screw

Brand: Newlec

Category: Screws

Product Description: The M8 x 25mm Hexagon Head Brass Set Screw by Newlec is a versatile fastening solution suitable for various applications. This set screw features a hexagon head design and is fully threaded, providing secure and reliable fastening. It is made of high-quality brass, ensuring durability and resistance to corrosion. With a length of 25mm, this set screw is ideal for use in projects that require precise and efficient fastening.

Key Features:

- Size: M8 x 25mm
 - Head Type: Hexagon
 - Thread Type: Fully Threaded
-

Specifications:

- Material: Other
- Surface Protection: Untreated
- Length (mm): 25
- Model: Tappet

ETIM Class-9.0: Set screw (EC002390)

ETIM Features:

- Material: Other (EV000154)
- Surface Protection: Untreated (EV006034)
- Length (mm): 25
- Model: Tappet (EV008830)
- Screwing System: Other (EV000154)
- Thread Type: Metric (EV003712)

Applications:

- This set screw can be used in various industries and applications where secure fastening is required. It is commonly used in electrical, mechanical, and construction projects.
