

MPN: NLS4520A

Product Name: Black 3.5 x 38mm Drywall Screw

Brand: Newlec

Category: Screws

Product Description: The Black 3.5 x 38mm Drywall Screw is a high-quality fastener designed for drywall installation and other applications. It features a Phillips drive and a countersunk bugle head for easy installation and a flush finish. The screws are coated in a durable grey phosphate finish, providing corrosion resistance and a sleek appearance. With a length of 12mm, these screws are suitable for various thicknesses of drywall and can be used through small gauge sheet metal. The sharp point ensures quick and effortless penetration into plasterboard, making them ideal for both professional contractors and DIY enthusiasts.

Key Features:

- Countersunk bugle head for a flush finish
 - Phillips drive for easy installation
 - 12mm length suitable for various drywall thicknesses
 - Grey phosphate coating for corrosion resistance and aesthetics
 - Can be used through small gauge sheet metal
 - Sharp point for quick penetration into plasterboard
-

Specifications:

- Size: 3.5 x 38mm
- Head Type: Flat head
- Drive Type: Phillips
- Material: Steel
- Length: 38mm
- Surface Protection: Other

ETIM Class-9.0: Wood / Chipboard Screw (EC002385)**ETIM Features:**

- Material: Steel (EV000179)
- Surface Protection: Other (EV000154)
- Diameter (mm): 3.5
- Length (mm): 38
- Head Type: Flat head (EV003224)
- Screwing System: Phillips (EV000427)

Applications: Drywall installation, Sheet metal work, Plasterboard fixing
