

MPN: NLPDN

Product Name: 70-600V AC Batteries Pocket Size Power Detector

Brand: Newlec

Category: Power Detectors

Product Description: The NLPDN is a Non-Contact Voltage Detector c/w LED & Audible Indication. It provides optical and acoustic indication of AC voltages between 90-1000V. It features a clear, omni-directional flashing LED for easy detection. This pocket-sized power detector offers quick and accurate detection of cable breaks, phase detection in sockets, and microwave leakage detection. The press-to-test switch avoids nuisance buzzing and extends battery life.

Key Features:

- 90-1,000 V AC Range.
- Indication: 1 LED & audible buzzer.
- CAT III/600V.
- Detects microwave leakage and cable breaks.
- Requires 2 x 1.5V AAA Batteries (included).
- Temperature range: 10°C - 50°C.
- Phase detection in sockets.
- Dimensions: 150 x 22 x 21 mm.

ETIM class-9.0: Calibration measuring instrument (EC002744)

ETIM features:

- Measuring instrument type: Power analyser (EV010553)
- Brand independent calibration: No
- Calibration in accordance with ISO/IEC 17025: No

Applications:

- Cable break detection
- Phase detection in sockets
- Microwave leakage detection
