

MPN: NLLRMAGT4

Product Name: Inward Z + L Standard Bracket

Brand: Newlec

Category: Door Locks & Accessories

Product Description: The Inward Z + L Standard Bracket, manufactured by Newlec, is a versatile accessory that can be used in conjunction with an audio door entry system (NLAK range) or an electronic access control system (NLLRK range). It is designed to provide a secure mounting solution for timber and aluminium single leaf doors. The bracket is specifically designed for inward opening doors and is suitable for medium/high security magnets. It features an adjustable L bracket with an architectural cover, ensuring a durable construction for long-lasting performance.

Key Features:

- Suitable for timber and aluminium single leaf doors
 - Inward opening design
 - Compatible with medium/high security magnets
 - Adjustable L bracket with architectural cover for inward opening doors
 - Secure Mounting Solution
 - Durable Construction
-

Specifications:

- Operating voltage (V): 24
- Construction type: Angular
- Mounting method: Surface mounting

ETIM class-9.0: Magnet for door locking mechanism (EC001769)

ETIM features:

- Operating voltage (V): 24
- Construction type: Angular (EV000037)
- Mounting method: Surface mounting (EV000945)

Applications: The Inward Z + L Standard Bracket is commonly used in various applications such as residential buildings, commercial establishments, and industrial facilities where secure access control and door locking mechanisms are required.
