

MPN: NLLRMAGT1

Product Name: Electromagnetic Standard Unmonitored Door Lock

Brand: Newlec

Category: Door Locks & Accessories

Product Description: The Electromagnetic Standard Unmonitored Door Lock by Newlec offers the ideal solution to secure a door. It can be used in conjunction with an audio door entry system (NLAK range) or an electronic access control system (NLLRK range). This electromagnetic lock is designed to provide reliable and efficient door security.

Key Features:

- Dual voltage - 12 or 24V DC.
- Current draw - 12V DC 500mA, 24V DC 250Ma.
- Push off button situated on armature plate for instant release.
- Monitored - detects if door is open or closed as part of a wider security system.
- Suitable for timber and aluminium single leaf doors.
- Eliminates the need for keys, providing convenience and enhanced security.

Specifications:

- Operating voltage (V): 24
- Construction type: Angular
- Mounting method: Surface mounting

ETIM class-9.0: Magnet for door locking mechanism (EC001769)

ETIM features:

- Operating voltage (V): 24
- Construction type: Angular (EV000037)
- Mounting method: Surface mounting (EV000945)

Applications:

- Suitable for various applications including residential buildings, commercial establishments, and industrial facilities.
